

# *Certificate of Origin*

**Australia**

**Fetal Bovine Serum**

**Expiration Date: June 2021**

**Lot Number: A57F80H**

This is to certify that the raw bovine serum used to manufacture Fetal Bovine Serum, Lot Number A57F80H, was collected from abattoirs regulated by the Australian Government Department of Agriculture from cattle of Australian origin.

Furthermore, the maternal animals from which the blood was derived received ante-mortem and post-mortem inspections at the time of slaughter under a veterinarian's supervision, at a government approved facility, and appeared free of infectious and contagious diseases and injurious parasites.

The products were derived from animals from regions where no case of foot-and-mouth disease, vesicular stomatitis, rinderpest, peste des petits ruminants or Rift Valley fever have been recorded for the last 12 months, and where no vaccination has occurred for the last 12 months for these diseases.

None of Gemini Bio-Products' products contain or are derived from specified risk materials defined in Commission decision 97/534/EC.\*

\*Specified risk material as defined by the EC include: a) The skull, including the brain and eyes, tonsils and spinal cord of bovine animals aged over 12 months and of bovine and caprine animals which are aged over 12 months or have a permanent incisor tooth erupted through the gum; b) The spleens of bovine and caprine animals.
